

**AGNC Spring Meeting 2019**

**26<sup>th</sup> April 2019**

**Prospero House, 241 Borough High Street, London SE1 1GA**

**CALL FOR ABSTRACTS & POSTERS**

We are very pleased to announce that the abstract submission form is now available on the AGNC website.

The AGNC Spring meeting provides a popular and important forum for colleagues to share their professional experiences and present their work, in both the clinical and research fields, to their peer group.

We have reserved a number of slots on the programme for papers from the membership and will also have poster boards at the venue. We would encourage you all to use this opportunity to showcase your work at our national professional conference.

All abstracts (up to 300 words excluding title and authors, no graphics) for spoken presentations or posters should be submitted on a typed abstract submission form on the AGNC website (<http://www.agnc.org.uk/news-events/news/call-for-abstracts-for-the-agnc-spring-conference/>) via e mail to Pooja Dasani ([pooja.dasani@gstt.nhs.uk](mailto:pooja.dasani@gstt.nhs.uk)).

**The call for abstracts for spoken presentations and posters closes on 10<sup>th</sup> February 2019 at 12pm.**

All abstracts will be reviewed anonymously by the AGNC Spring meeting abstract review committee, who will decide whether an abstract is accepted. The first author will then be informed of the organising committee's decision on whether their abstract has been accepted for presentation at the meeting via email by **Monday the 11<sup>th</sup> March 2019**.

Please note if your abstract is accepted for this meeting you will be expected to register and to self-fund your attendance at the meeting.

Research and clinical case presentations will be equally welcome from all areas of genetic counselling, particularly but not limiting to those with themes of 'multi-disciplinary working'.

The team here at Guys hospital look forward to welcoming you here in London. If you have any questions in the meanwhile please do not hesitate to contact the Principal genetic counsellors; Pooja Dasani ([pooja.dasani@gstt.nhs.uk](mailto:pooja.dasani@gstt.nhs.uk)), Demetra Georgiou ([demetra.georgiou@gstt.nhs.uk](mailto:demetra.georgiou@gstt.nhs.uk)) and Eshika Haque ([eshika.haque@gstt.nhs.uk](mailto:eshika.haque@gstt.nhs.uk)).

Best Wishes

AGNC spring meeting organising committee 2019
