KSF Profile Genetic Counsellor Principal Band 8a – Clinical

Job Purpose: Clinical – either Service Development project lead, or Team Leader.

To lead a high quality Clinical Genetics Service for the population of [Insert location].
To help individuals and families deal with a known or suspected genetic condition.
This is achieved by counselling the individuals and their families to:
· Understand the role of the Clinical Genetics Service
· Understand the information about the genetic condition
· Appreciate the inheritance pattern and risk of recurrence
· Understand the options available
· Make decisions appropriate to their personal and family situation
· Make the best possible adjustment to the disorder or risk

The Genetic Counsellor will manage a clinical caseload of new and follow-up cases, and provide an independent Genetic Counselling service or arrange and participate in [Insert e.g. Joint-Geneticist co counselling appointments with medical and genetic counselling colleagues].

To act as a significant educational resource both to the wider health care system and trainees in clinical genetics and genetic counselling. To act as Student Supervisor for those undertaking MSc Genetic Counselling Course, and be prepared to supervise placements for non genetic colleagues requiring experience at various levels e.g. non-participant observation, participant observation, etc within Clinical Genetics.

Core Dimensions
See Band 7 Genetic Counsellor KSF profile

Specific Dimensions

| HWB2 | See Band 7 Genetic Counsellor KSF profile – Whole person |
| HWB6 | See Band 7 Genetic Counsellor KSF profile – Assess risk |
| HWB7 | See Band 7 Genetic Counsellor KSF profile – Action – the counselling process |

Specific Dimension G5 Service and Project Management

| Foundation Level | Second Gateway | All indicators |
| Level 3         | Level 4        | All indicators |

Level 3 Indicators

a) identifies and assesses for operational planning:
   i.) the ways in which services / projects contribute to the achievement of organisational / partnership direction, aims and objectives
   ii.) what needs to be achieved in services / projects
   iii.) the inter-relationships between different parts including critical paths
iv.) who needs to be involved in the planning and implementation of services / projects
v.) potential risks
vi.) priorities and targets
vii.) the impact of legislation, policies, procedures
viii.) methods and processes for reporting, controlling and communicating

b) enables people delivering services / projects to understand their role and its relationship to others
c) provides advice and support to people on day-to-day priorities, risks and issues
d) gathers enough information to monitor the delivery of the service / project against overall plans and promptly identifies and investigates any issues
e) determines and implements the most appropriate ways of addressing issues taking account of any relevant factors
f) gains feedback on how to improve service / project delivery and uses it to improve future practice
g) provides information to the people who hold overall responsibility for services / projects when they appear to be ineffective or inefficient in meeting requirements

Level 4 Indicators

a) works with others to identify and produce plans that contain all the necessary detail for managing and delivering services and/or projects and that are:
  i.) consistent with legislation, policies and procedures
  ii.) supportive of the organisation’s / partnership’s direction, strategy and objectives
b) negotiates and agrees with others how to put in place sufficient supporting mechanisms to ensure that services and/or projects are managed and delivered effectively
c) works with others to put in place methods, processes and systems for implementing service / project plans
d) monitors the delivery and management of services and/or projects in order to:
  i.) evaluate performance against plans
  ii.) identify issues
  iii.) predict future needs and shortfalls
  iv.) identify trends and developments
  v.) assess capacity to meet future needs
e) reviews plans, methods, processes and systems for managing services and/or projects and modifies them to improve effectiveness
f) provides appropriate support to others to improve their knowledge and understanding of service and/or project management.

Examples of Application

1. Services and projects
   • assessment, diagnosis care and intervention
   • service provision and patient pathways
   • service effectiveness
   • multidisciplinary working
2. Who needs to be involved in the planning and implementation- might include:
   • individuals and teams involved in delivery of the service
   • individuals and teams in interconnected services
   • service users/support and focus groups

3. Legislation policies and procedures
   • Data protection
   • Financial resources
   • Specific health, social and legal guidelines

4. Monitoring the delivery of the service might include
   • Auditing against set standards
   • Patient satisfaction survey
   • Effectiveness of service in meeting defined needs
   • Efficiency in relation to time and financial resources

5. Ways of addressing issues
   • Developing services to meet the needs of new and current users
   • Improving guidance/information/support to the people involved
   • Request or access specialist assistance
   • Adjusting protocols
   • Advising on the need for changes in strategy

6. Factors may include
   • Time and resources
   • Changing priorities
   • New developments in genetics or related fields
   • Compatibility/impact on other services
